SUMMARY

Final-year B.Tech Computer Science student at VIT Bhopal University with hands-on software and backend development experience through industry internships and projects. Experienced in Java, Python, JavaScript, SQL, REST APIs, Spring Boot, and MySQL, with a strong foundation in Data Structures & Algorithms, OOP, DBMS, and software engineering. Focused on building reliable backend systems and practical AI-powered applications.

EDUCATION

VIT Bhopal University – B.Tech in Computer Science Engineering

2023 – 2027

TECHNICAL SKILLS

- **Languages:** Java, Python, JavaScript, SQL
- **Backend:** Spring Boot, Spring Security, REST APIs, Node.js, JWT
- **Databases:** MySQL, SQLite
- **Core:** Data Structures & Algorithms, OOP, DBMS
- **Web:** HTML, CSS
- **Tools:** Git, GitHub, IntelliJ IDEA, Maven, PyWebView, PyInstaller

PROJECTS

CareerPilot – AI-Powered Job Application Platform *Java, Spring Boot, Spring Security, JWT, MySQL, JPA/Hibernate*

- Implemented user registration and authentication using Spring Security, BCrypt password hashing, and JWT-based authorization.
- Developed resume upload and user-specific resume retrieval using Spring Data JPA and authenticated user context.
- Implemented user registration and authentication using Spring Security, BCrypt password hashing, and JWT-based authorization.
- Developed resume upload and user-specific resume retrieval using Spring Data JPA and authenticated user context.

AquaOS – Water Quality Monitoring Platform *Python, PyWebView, PyInstaller, Machine Learning, AI*

- Developed a desktop-based water quality monitoring platform combining machine learning predictions with AI-driven reasoning for water safety evaluation.
- Designed a hybrid decision system supporting real-time analysis, scenario simulation, and structured reporting workflows.
- Implemented user-specific tracking and data interpretation features for monitoring historical water quality trends.
- Packaged the application as standalone desktop software using PyInstaller and PyWebView.

Discord AI Chatbot with Search Integration *JavaScript, Node.js, Discord.js*

- Built an AI-powered Discord chatbot with conversational interaction and external search API integration.
- Implemented modular command handling and structured response workflows to improve maintainability and extensibility.

EXPERIENCE

Jr Software Engineer Intern – Cedilla Interactive

Chennai – May 2026 – Jul 2026

- Contributed to website and backend development through feature implementation, debugging, testing, and application maintenance.
- Worked on technical SEO, metadata, structured content, website performance, and technical optimization for client projects.
- Investigated application issues and collaborated with the development team to improve functionality, reliability, and user experience.
- Supported client projects throughout development and maintenance while following professional software development practices.

Management Trainee Intern – NxtJob.ai

Remote – Aug 2025 – Oct 2025

- Contributed to assigned projects and operational tasks while supporting day-to-day business activities.
- Assisted with project maintenance and task execution while collaborating with the team on assigned requirements.
- Supported ongoing project activities and demonstrated adaptability across technical and operational workflows.

CERTIFICATIONS

- **IBM AI Engineering** – IBM Skills Network / Coursera (Jul 2026)
- **Google AI Essentials** – Google / Coursera (Jul 2026)
- **ServiceNow Virtual Internship Program** – ServiceNow University & SmartBridge (May 2026)
- **NPTEL Elite – Marketing Analytics** – NPTEL (Jan–Apr 2026)
- **Graph Theory Programming Camp** – AlgoUniversity (2026)
- **Programming in Java** – Vityarthi, VIT (Sep 2025)
