SUMMARY

Final-year B.Tech Computer Science student with hands-on experience in software development, backend systems, web technologies, and AI-powered applications through academic projects and industry internships. Proficient in Python, JavaScript, SQL, and modern development tools with a strong interest in building scalable software solutions and solving real-world problems. Passionate about continuous learning, data structures and algorithms, and applying software engineering principles to develop reliable, user-focused applications.

EDUCATION

VIT Bhopal University – B.Tech in Computer Science Engineering

2021 – 2023

GRT Mahalakshmi Vidyalaya, Chennai – Higher Secondary

2008 – 2020

Chettinad Vidyashram, Chennai – Class X (CBSE)

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, HTML/CSS, SQL, SQLite, Java (Basics), Pawn
- **Libraries & Frameworks:** Streamlit, Pandas, Matplotlib, Discord.js
- **Tools & Platforms:** GitHub, Node.js, PyWebView, PyInstaller, Google Ads Manager, Meta Ads Manager
- **Domains:** Software Development, Backend Development, Web Development, AI Application Development

PROJECTS

AquaOS – Water Quality Monitoring Platform

Python, PyWebView, PyInstaller

- Developed a desktop-based water quality monitoring platform combining machine learning predictions with AI-driven reasoning for water safety evaluation.
- Designed a hybrid decision system supporting real-time analysis, scenario simulation, and structured reporting workflows.
- Implemented user-specific tracking and data interpretation features for monitoring historical water quality trends.
- Packaged the application as standalone desktop software using PyInstaller and PyWebView.

Discord AI Chatbot with Search Integration

JavaScript, Node.js, Discord.js

- Built an AI-powered Discord chatbot with conversational interaction and external search API integration.
- Implemented command handling, dynamic responses, and user-friendly interaction workflows for Discord communities.
- Developed modular bot architecture using Node.js and Discord.js for scalability and maintainability.

EXPERIENCE

Jr Software Engineer Intern – Cedilla Interactive

Chennai – May 2026 – Jul 2026

- Assisted in website and backend development by contributing to feature implementation, debugging, and application maintenance.
- Worked on Technical SEO initiatives including on-page optimization, metadata improvements, structured content implementation, and search engine visibility enhancements.
- Optimized website performance by improving page speed, technical configurations, and overall user experience.

- Collaborated with the development team to support ongoing client projects while following professional software development practices.

Management Trainee Intern – NxtJob

Remote – Feb 2026 – Apr 2026

- Provided operational and technical support by assisting users through the company's AI-powered support agent.
- Worked closely with cross-functional teams to resolve user issues and improve customer support workflows.
- Contributed to the maintenance and enhancement of existing company projects by supporting feature updates and operational improvements.
- Participated in day-to-day business operations while gaining exposure to AI-driven customer support systems and workflow management.

CERTIFICATIONS

- Marketing Analytics – NPTEL (Elite) (Apr 2026)
- Virtual Internship Program (ServiceNow Administration, Agentic AI, Flows, ATF, Reports) – ServiceNow University & SmartBridge (May 2026)
- Google IT Support Professional Certificate – Google (Feb 2026)
- Agile Project Management – HP LIFE (Feb 2026)
- Graph Theory Programming Camp – AlgoUniversity (Mar 2026)
- AWS Certification Course – Intellipaat (Sep 2025)
- Programming in Java – Vityarthi, VIT Bhopal (Sep 2025)
- Python Essentials – Vityarthi, VIT Bhopal (Sep 2024)
- Fundamentals of AI and Machine Learning – Vityarthi, VIT Bhopal (Dec 2023)
